WARNING FROM EXPERTS: PROTECT YOUR CHILD'S IMMUNITY

SEPTEMBER 27 2021

Expressing that with the start of face-to-face education, protecting the immune system in children gains more importance, Quality Life Specialist **Assoc. Prof. Haluk Saçaklı** warned families about the nutrition and lifestyle of their children. "The most important meal of children is breakfast," emphasized Assoc. Prof. Saçaklı and said that activity and exercise are also important in protecting the immune system.

With the start of face-to-face education, occasional cases began to be seen in schools. Explaining the importance of nutrition in strengthening the immune system in children, Istanbul Gelisim University Quality Life Specialist Assoc. Prof. Haluk Saçaklı stated that it is also very important to maintain sleep patterns, get used to breathing from the diaphragm and exercise at least 2-3 times a week. Stating that children should have adequate and balanced nutrition, Saçaklı told families, "Keep your children away from fast food. Never send your child to school without breakfast. Breakfast is always the main queen of meals. As long as they don't have breakfast, they can take lessons from the best teachers, but they will not absorb the information." Emphasizing that children should not stay up until two or three at night and spend time on the computer all the time, Dr. Saçaklı stated that they should sleep at least 8-9 hours.

"R&D ACTIVITIES AND EXPENDITURES HAVE NO EFFECT ON EMPLOYMENT"

SEPTEMBER 28 2021

Having signed a study on the relationship between R&D activities and employment and the contribution of R&D studies to employment, **Asst. Prof. Canan Tiftik said**, "Contrary to expectations, it is seen that technological developments and R&D activities do not increase general employment, but increase unemployment. It is seen that the employment-reducing effects of technology are higher than the employment-increasing effects."

Making a statement about her article titled "The Effect of Technology-Based Research and Development (R&D) Activities on General Employment: Systematic Compilation Study", Asst. Prof. Canan Tiftik said, "According to the research results; R&D activities and expenditures, which are included in the economic activities of the countries, have no effect on employment."

FESTIVAL JOURNEY OF THE MOVIE ‘AZER’ CONTINUES

SEPTEMBER 30 2021

From Istanbul Gelisim University (IGU) Faculty of Fine Arts (FFA) Radio, Television and Cinema Department Lecturer **Ali Kemal Çipe**'s film ‘Azer’ will be screened at the Noble Film Festival to be held in Bangalore, India.

‘Azer’ is a mid-length film that deals with three different stories in the main focus of a legacy story. Stating that he creates layers with symbols, names, actions and dialogues in the film, director Kemal Çipe questions the psychological factors behind the events in social life.

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
