PRIVATE PENSION SYSTEM AVERAGE SAVINGS PER CAPITA IS 22 THOUSAND TL

NOVEMBER 3 2021

Stating that the total savings in the Private Pension System (BES) as of August 2021 is 152 billion TL, Capital Markets and **Finance Specialist Dr. Bülent İlhan** indicates that the number of participants is approximately 6.9 million people. Pointing out that the average savings per capita is 22 thousand TL, İlhan says, **“Turkey is one of the countries with the strongest incentives in the private pension system among OECD countries. Despite this, the point reached in 18 years is far behind what it should be.”**

“TURKEY APPLIES THE STRONGEST INCENTIVES”

“The ratio of individual pension savings to national income in OECD countries is 49.5% on average, it is 2.5% in our country,” says Asst. Prof.

Bülent İlhan and adds, “Of the OECD countries, Turkey is one of the countries with the strongest incentives in the private pension system. Despite this, the point reached in 18 years is far behind what it should be.”

MOBILE DNA CENTER ESTABLISHED AT ARCHAEOLOGICAL EXCAVATION SITE

NOVEMBER 4 2021

A mobile DNA center has been established for the first time in Turkey in the Ayasuluk Hill and St. Jean Monument excavation. Thanks to the mobile DNA center, the important materials found in the excavation will not need to be sent to centers abroad.

While Ayasuluk Hill and St. Jean Monument excavation continues with the support of Istanbul Gelisim University, a mobile DNA center has been established in the excavation area where important remains for the Christian world have been found. The mobile DNA center established for the first time in Turkey at the Ayasuluk Hill and St. Jean Monument Excavation area is

named as the Ancient DNA Research Center (ADRC), and there will be no need to send important finds from the excavation to DNA centers abroad thanks to the center.

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS
