**2021**

Volume 1 / Issue 11

Dear Young People,

Istanbul Gelişim Vocational School, which started its education life in 2008, started to publish a monthly E-Bulletin as of 2021. We are very happy to bring you the november issue of our e-bulletin and to share with you the developments in our Vocational School. I believe you will enjoy reading our bulletin and I present my greetings and respect with the hope of meeting you in a new issue.

You can follow all the developments in our Vocational School on our social media channels.

**Director of IGVS**  
**Assist. Prof. Dr. İsmail Cem AY**

## **World universities are ranked according to their ‘Power of Influence’: Istanbul Gelisim University ranked 24th in Quality Education!**

Times Higher Education (THE) Impact Ranking 2021, the world university ranking organization, has been announced. In the ranking, Istanbul Gelisim University (IGU) has achieved a great success by taking the 24th place among the universities that provide the highest quality education in the world.

In the category of ‘Quality Education’, Istanbul Gelisim University has achieved a great success by ranking 24th among 1240 universities worldwide. At the same time, the university ranked 1st, leaving 45 universities from Turkey in the ranking.

Please [click here](#) for more information.

## 822nd AMONG 4,126 WORLD UNIVERSITIES

World university ranking organization SCIMAGO 2021 results announced. In the evaluation, Istanbul Gelisim University was ranked 822th among 4 thousand 126 universities in the world.

The SCIMAGO 2021 world university ranking list, which is made by evaluating the research and innovation activities of world universities between 2015-2019 and web indicators for 2020, has been announced.

### **“21st in Economics, Econometrics and Finance”**

SCIMAGO, the Spanish-based international higher education rating agency, measured the research performance, innovation output and web visibility of world universities. According to its research and innovation studies in the fields of Economics, Econometrics and Finance, Istanbul Gelisim University ranked 21st among the universities in Turkey, 7th according to its research and innovation studies in the field of environmental sciences, and 30th in Turkey according to its research and innovation studies in the field of mathematics.

In the field of environmental sciences, Istanbul Gelisim University also managed to be the 300th among OECD country universities and 37th among Middle East universities.

**We commemorate our Great Leader Mustafa Kemal Atatürk with great longing and respect on the 83rd anniversary of his death.**

## BEING a STUDENT in IGVS

### Istanbul Gelisim University Machinery and Metal Technologies Department, Machinery Program Students Visited the Defense Industry Fair

Organized Defence Industry fair trip is accompanied by, Head of Machine and Metal Technologies Department Lecturer Enes KALYONCU, Head of Machinery Program Lecturer Yasemen KARAMAN, Company Assistant General Manager Meltem UYGUN and Human Resources Specialist Kübra ERKAN.

The machinery program students had the opportunity to ask questions to the officials during the fair tour and had the chance to get detailed information about how the products were produced. They also had the opportunity to meet with employers at the fair, and they were informed about the future opportunities in terms of both job positions and internships.

At the fair, aircrafts, tanks, weapons, armored vehicles and spare parts produced in the defense industry were examined, and the material properties and usage areas of these products were explained by producer representatives. Thus it has been possible for our students to explore the sector.

After the fair trip, Burakcan Glassmold Company held a short meeting with our teachers and students and informed them about the number of CNC machines in their company, the processing capacity, and they mentioned that they could offer internship and job opportunities to our students

## Feed Seasonal, Protect Your Health and Nature!

Although it is possible to find all kinds of vegetables and fruits in all four seasons thanks to the improvement of food imports, greenhouse production and storage conditions, experts agree that seasonal and fresh nutrition is better for both nature and human health.

### Why should we eat seasonally?

1. More nutritive: It is difficult to find the taste and quality of field production in products grown in greenhouses by providing unnatural environment and conditions. Micronutrients such as vitamins, antioxidants, phytochemicals and minerals are richer when the products are in season and fresh; It contains the nutritional value that our body needs in that season.

2. Better for nature: Fruits and vegetables planted in the season grow in harmony with natural cycles, not against nature. In particular, yield-oriented agricultural inputs used in industrial production cause environmental damage and losses. In local varieties, which are more resistant if grown in season, usually used less or no toxic chemicals such as pesticides and reduce the carbon footprint with a shorter supply chain.

3. More economical: Since seasonal fruit and vegetable production can be achieved with less input, it is less costly. Logistics costs and losses such as transportation and storage during the transportation of products from farm to fork are reflected per unit product. Therefore, instead of standardized production and long supply chains; choosing diversity-oriented, small-scale and local production models provides a more economical shopping opportunity.

### Seasonal nutrition schedule for December:

### Let's get to know the pumpkin, one of the winter fruits

Pumpkin is a winter squash variety that belongs to the cucurbit family, its homeland is the Americas, and is still grown in China, India, Russia and the USA. In our country, Sakarya, Düzce, Afyonkarahisar and Samsun are recorded as the provinces where the most pumpkin is grown.

Pumpkin, which protects our body against upper respiratory tract infections by clearing free radicals in the immune system, is one of the foods that should definitely be in our diet. It also plays a major role in the proper functioning of our digestive system by preventing intestinal laziness.

## Recipe - Pumpkin Soup in Chicken Stock Ingredients:

### Malzemeler

- 1 Tablespoon of Butter
- 2 Tablespoons of Olive Oil
- 1 Piece Chopped Onion
- 1 Clove of Chopped Garlic
- 1 Tablespoon of Flour
- 1 Cup of Chicken Stock
- 1 Bowl Diced Roasted Pumpkin
- Enough Salt

### How to make pumpkin soup in chicken stock:

- Put the oil, onion and garlic in the pot and saute.
- Add the flour and saute until fragrant. Add chicken stock and sprinkle with salt. Add extra hot water and mix.
- When it starts to boil, add the pumpkin and cook until the onions soften.
- Put it through the blender and adjust the density. Transfer to serving plates, serve with pomegranate and dill.

## Istanbul Gelisim University Brings Education to the Museum

### Students of the Public Relations and Publicity Program took a Lesson at the Museum

Istanbul Gelisim University Vocational School Public Relations and Publicity Program students held the Public Relations and Advertising in Cinema course at Turkey's First Cinema Museum.

The students, who completed their four-week theoretical training, experienced the practical part of the course with many digital and analog works exhibited in the museum. The students examined together the cameras, sound and print samples used from the first years of cinema to the present. In addition to examining the inventions that laid the first foundations of the moving image, the students, who saw the opportunities offered by digital technologies and applied them together with their friends, completed their lessons under the leadership of Lect. Meltem İşler Sevindi.

Istanbul Cinema Museum, which was opened to the public in 2021 with one hundred and thirty works, is among the three best cinema museums in the world. Within the museum, there are two exhibition areas, one digital and the oth-

er telling the history of cinema, as well as an art gallery featuring national and international works. The historical building, which is nearly 200 years old, hosts the Atlas 1948 Cinema and the Istanbul Cinema Museum.

Lect. Atilla Akalın and Lect. Murat Çil contributed with their expertise to the lecture given by Lect. Meltem İşler Sevindi. The students who attended the lecture, the museum residents, guests and academicians who listened to the lecture expressed that they were pleased to have such an experience. At the end of the course, students created their own moving image experiences by taking photos and videos with the important works in the museum in their free time.

## CLUBS TALK

### Engine Club

Engine Club is a club established within the body of Istanbul Gelisim University, Department of Health, Culture and Sports (HCS). Club consultancy is carried out by Lecturer Yasemen KARAMAN, Head of Engine Program of Istanbul Gelisim Vocational School. Our club is a club where works are carried out to bring original ideas to life, its members can improve themselves technically or administratively, and its doors are open to everyone, not just engine students. The aim of our club is to cooperate

with relevant institutions, to plan and organize joint studies, to participate in conferences, congresses and workshops, to organize technical trips, to participate in sectoral fairs, to create training workshops, to strengthen the industrial and social relations of students and academicians, in addition to the social and cultural development of our students.

Our club's fields of activity are;

- Collaborating with relevant organizations,
- Attending conferences, congresses and workshops,
- Organizing technical trips,
- Following academic and professional fairs,
- Strengthening sectoral ties with students and academics,
- Organizing interviews with various speakers.

## NEWS from IGVS

# THINGS TO KNOW

## ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

### What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

### How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

### What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

### What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with a **person who is recommended insulation** at home.

## PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
