PSYCHOLOGICAL FIRST AID AFTER THE TRAUMA SPEEDS UP THE ADAPTATION PROCESS OF THE PERSON TO THE CASE

FEBRUARY 21 2022

Dr. Esra Savaş, who is an Academic Member of the Department of Psychology of the Economics, Administrative and Social Sciences of the Istanbul Gelisim University, indicated that the psychological first aid due to be provided after the trauma raised the adaptation process of the person to the case. Natural disasters, violence, epidemics, abuse cases and many more of them bring forth physical and psychological effects. Dr. Esra Savaş, who is an Academic Member of the Department of Psychology of the Economics, Administrative and Social Sciences of the Istanbul Gelisim University, who indicated that in case of no instant intervention is made in the cases creating traumatic effects, it might cause the occurrence of much more serious problems, saying: "The Psychological First Aid (PIY) is not a therapy or treatment."

“WINNING IN SPORTS AT ANY EXPENSE IS NOT JUSTIFIABLE!”**FEBRUARY 23 / 2022**

Evaluating the use of stimulants in sports, Istanbul Gelisim University School of Physical Education and Sports Director Assoc. Prof. Dr. Mehmet Soyol emphasized that the understanding of “Everything is permissible to win” should be abandoned for lasting success in sports.

The doping allegations cover the most important agenda of the world of sports in recent days. Despite of strict measures so taken, it has been not possible somehow to preclude the doping cases. The world of sports feels substantially disturbed by such cases where the names of very famous athletes (sportsmen/women), known with their successes, have involved in, and been disqualified from tournaments and been subject to measures of collection of awarded medal(s) back.

TAYF INTERNATIONAL SHORT-FILM FESTIVAL BEGINS**FEBRUARY 24 / 2022**

The Academic Member of the Faculty of Dentistry of the Istanbul Gelisim University, Dr. Dentist Ayfer Atamer, who indicated that the stress is one of the most important factors of the burixism, said that there has been an increase in the grinding or clenching of the teeth above normal level at the pandemic period.

If you feel pain in your jaw muscle or have headache when you wake up in the morning, it may be possible that you are experiencing a problem of grinding or clenching of the teeth, to put it another way, a burixism. The pandemic that restricts us in various numbers of fields especially in recent years also increased the stress in our daily life. The Academic Member of the Faculty of Dentistry of the Istanbul Gelisim University, Dr. Dentist Ayfer Atamer, who indicated that the stress is one of the most important factors of Burixism, further added that there has been increase in the grinding or clenching of the teeth beyond normal level during the pandemic period.

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
