1,5 MILLION OF PEOPLE LOSES THEIR LIVES EVERY YEAR

APRIL 25

2022

The vaccination takes place among the most important interventions of community health. The **Academic Member Dr. Bahar Nur Kanbur**, who said that the deaths of 2-3 millions of babies are prevented every year through the vaccination, indicated that every child is entitled to the vaccination service and it is necessary for each of the parents to be aware of this responsibility.

The first week of April is celebrated as the “Week of Vaccination” and various works are carried out for the protection of the people of all ages against diseases. The vaccination programs, especially the period of childhood, have been significantly successful worldwide and notwithstanding that the diseases that have been preventable through vaccination were reduced at substantial degree, the rates of vaccinations have not come to the required level yet. According to the data, announced by the World Health Organization (WHO), 1,5 millions of people lose their lives as a consequence of the preventable diseases.

“MULTIENGINE AIRPLANES ARE SAFER AND MORE RELIABLE”

APRIL 26

2022

While the inspections are continued on the accident where two pilots lost their lives as a result of the a single-engine airplane crash within the close proximity of the Yunuseli Airport of Bursa, the **Academic Member Dr. R. Haluk Kul** from the Istanbul Gelişim University made evaluations about the airplane crashes.

The Academic Member **Dr. R. Haluk Kul**, who emphasized that the reason for the preference of the single-engine airplanes at the beginning stages of the pilot training has been the fact that they require lesser skill and equipment, has indicated that the multi-engine airplanes were more reliable and safer in the airplane incidents that may occur in the applications.

DO NOT DO IT TO YOUR PETS!

05 MAY

2022

The craziness pertaining to the dying the hair of dogs and cats turned out to be a trend worldwide in recent years. **Prof. Dr. Rifat Mutuş**, who made an explanation about the matter, **indicated that the use of dye products on animals may cause serious health problems, even further the death as well.**

The pets with their hair dyed by their owners, who want to distract attention, are frequently seen at streets. This treatment, made entirely towards the discretionary and visual anxieties of people with the effects of social media sharings, has serious negative effects on the animals. The use of these products on the animals may be causing the occurrence of serious health problems such as allergy, poisoning and changes in behaviours and even the deaths of them as well.

OBESITY IS SEEN IN 40 % OF PATIENTS SUFFERING FROM ASTHMA

06 MAY

2022

The asthma disease that has been a serious public health problem affecting an approximate number of 370 millions of people throughout the world is seen on one among every 13 persons in our country. **Dr. Nurten Elkin**, who is a Public Health Specialist from the Istanbul Gelisim University and drew attention to the fact that there was not any drug therapy available in any part of the world totally eliminating the asthma, emphasized the false facts in asthma on the occasion of May 5 International Asthma Day.

The asthma, which affects the people from every age, however, can be taken under control only through correct methods of treatments, is not a disease of childhood as thought and may be developed at later stages as well. Mrs. Elkin, who made evaluations with relation to the disease, experienced relevant increase in the number of cases every year, **emphasized that there might be a fall in the daily life qualities of the patients suffering from the asthma.**
