NEWS**Students still have the opportunity for transfer****DECEMBER 16, 2019**

Istanbul Gelisim University Chairman of the Board of Trustees Abdulkadir Gayretli made a statement about the transfer opportunities of the university. Noting that students should not feel sad because they study in a department and university they do not want, Gayretli reminded that the applications will end on Monday, February 10.

The transfer of students to associate degree or bachelor's degree programs is called as transfer, as long as the central placement scores of the year in which they register must provide the central placement scores of the higher education programs they wish to transfer. Transfers are made according to the provisions of the Council of Higher Education, which is "Regulation on Transition Between Associate and Bachelor's Degree Programs, Double Major, Minor in Higher Education Institutions and Credit Transfer Between Institutions."

Terrorist attacks at the border affected children the most

DECEMBER 16, 2019

There were 34 rockets and mortar attacks on Kilis in 2016 and 2019 due to the civil war in Syria. 25 people were killed and many citizens were injured in the attacks. Financial damage occurred in 367 homes and many schools, mosques, hospital. Mehmet Başçılar, a faculty member of the Department of Social Service at Istanbul Gelisim University, made researches on the effects of these attacks on children and stated that children were the most affected ones by the attacks on Kilis as with all terrorist attacks. Başçılar met with 64 children aged between 11 and 17 live in neighborhoods close to the Syrian border, and showed how the children were affected by the attacks on his research lasting 4 months.

According to the results of the research:

- About two out of three children are feared and worried about the terrorist attacks (%64,1).
- Three out of four children state loud noises remind them of the terrorist attack (%75).
- About two in five children have had negative dreams of a terrorist attack (%39,1).
- Two out of five children feel unsafe when wandering outdoors (%40,2).
- About two out of every five children want to move to another city (%42,2).
- About one in four children states changes in their parents' behavior after the terrorist attacks (%28,1).

Those exposed to peer bullying get 10 times more aesthetics surgery

DECEMBER 20, 2019

Today, human beings can apply aesthetic operations to correct the defects found in their body. Emre Tan, a psychiatrist who states that this condition, which also reaches the level of aesthetic dependence is called 'Body Dysmorphic Disorder', said: "Especially those exposed to peer bullying get 10 times more aesthetics. Body Dysmorphic Disorder is seen in 2 out of 100 people".

Aesthetic operations applied to many parts of the body such as nose, lip, cheek, chin, hip, after the people aim to feel better. However, some of them are not satisfied with the operations they have made, making this situation a repetitive process. Stating that aesthetic operations in the world compared to 2017 increased by 10 times Spec. Dr. Psychiatrist

Emre Tan pointed out that the most basic desire of man is to be loved, liked and approved by others.
