781 thousand applicants became university students: Enroll without waiting 1 more year

August 26 2020

YKS preference results, in which approximately 2.5 million university applicants took part, have been announced. According to the Higher Education Council's 2020 YKS Placement Results Report, the occupancy rate of universities has increased. Advising students who are eligible for registration Prof. Dr. Nail Öztaş said: "Placed students do not have to lose a year. Today, universities offer a variety of opportunities such as minor programs, double major and elective course pools to applicants who remain in other fields."

The 2020 YKS marathon ended with the announcement of the preference results. Following the announcement of the results that applicants are eagerly waiting for, the current excitement has started for the upcoming registration dates. Although the exam passed under the influence of coronavirus, the decrease in vacant quotas and the occupancy rate of universities compared to last year were interpreted by educators as a great success. Istanbul Gelisim University Vice Rector and Professor of Political Science and Public Administration Dr. Nail Öztaş evaluated the Higher Education Council's 2020 YKS Placement Results Report and made recommendations to applicants who will enroll at the university. Prof. Dr. Öztaş said, "Placed students do not need to lose a year. Today, universities offer various opportunities such as minor, double major and elective course pools to applicants whose hearts are left in other fields. It became very easy for applicants to nurture themselves from different fields. While the occupancy rate of state universities was 93.9 percent last year, it has 95.7 percent this year. Foundation universities also rose from 84.1 percent to 85.7 percent. While there were 57 thousand vacancies in 2020, the occupancy rate was 93.19 percent".

People say 'I exist' by resorting to violence in traffic**August 28 2020**

Drivers who do not know the rules, drive with alcohol, do not stop at a red light, throw crosses and speed excessively invite traffic accidents. Speaking about the frequent fights in the sect and resulting in murder as well as the accidents, Psychologist Arzu Somay said: "If parents solve problems in the family by resorting to violence, children also try to solve problems with violence in their business and private life and traffic when they grow up. Because he doesn't know any other problem solving method. In addition, people said "I am in" by resorting to violence in traffic."

According to the accident balance sheet report of the July 2020 period announced by the Directorate of Traffic Education and Research Department of the Police General Directorate, 35 thousand 212 accidents occurred throughout the country for a month. 26 thousand 684 people were injured and 265 people died. In the first 7 months of the year, 121,199 people were injured in 195,765 traffic accidents, while 1,143 people died.

IGUZEB

Istanbul Gelisim University Distance Education

Due to COVID-19, distance education process has started in universities in accordance with the decision taken by the **Council of Higher Education (YÖK)**. Istanbul Gelisim University **Distance Education Unit (IGUZEB)**, which has been operating since 2016, works at full capacity in order to continue the educational life of students efficiently in this process, with its technical infrastructure and experience.

IGUZEB has made that its vision to increase the knowledge and experience of our faculty members to the level of **international e-learning standards** with the use of distance education technologies aiming the life-long and unlimited learning awareness of distance education as student-centered, independent of time and place. In this context, it continues to work on digital content development with technologies based on e-learning, by providing the necessary technical support to existing **associate, undergraduate and graduate programs** carried out within our university.

In this challenging process that our country and the world live, our students can follow their lessons with the distance education system and access **the course content such as video, notes, test** prepared by our faculty members with the support of digital infrastructure. They can view their homework and deliver their homework to their lecturers through the same system.

The system provides the opportunity to attend live classes and communicate simultaneously with their lecturers, and then watch the course video again. Our students can enter the exams of the courses they are responsible for online. In the exam system, **questions and time have been meticulously prepared** in accordance with this infrastructure. All these materials are accessed through a computer, tablet or mobile device with internet connection. If our students have any questions about the process, after they send support requests, our personnel will help them.

As IGUZEB, we work to provide the most efficient education by using of all the possibilities of **digital technology** in order to avoid interruption of education.
