NEWS

University students' exhibition can be visited in virtual environment

JANUARY 11

2021

The students of the University carried their art exhibitions, which they regularly open every year, to the virtual environment this year. Expressing that they had to move their exhibitions to the virtual environment due to the coronavirus epidemic that affected the world, Lect. İrem Fulya Özkan said, "The pandemic has made its age of digitalization live and accelerated the process. Directed the graphic design of 2021"

Student exhibitions, which are opened every year in the corridors of the Istanbul Gelisim University (IGU) Faculty of Fine Arts, have been moved to the virtual environment this year. Lect. İrem Fulya Özkan, who led the digital typographic poster exhibitions named "History of Writing" and "Experimental Alphabet" organized among the projects of the students of Typography I, Typography III, Typography Applications and Experimental Typography, spoke about the exhibition.

Won 14 awards with his short film 'Necroman'

JANUARY 12

2021

Ercan Er, who made short films in horror and thriller style, attracted great attention with his second movie named "Necroman" in national and international festivals.

The world premiere of the film, which was shot in Istanbul, was held within the scope of the "Midsummer Scream Halloween Festival" held in Los Angeles, USA. The film won 14 awards in total, among them were the nominations 'Best horror movie' at Southeast Regional Fest, 'Spooky set design' at Creepy Tree Fest, "Best Director" at Monsterflix Awards and the "official film" at the Santiago Horror Film Fest, which is shown as one of the most distinguished festivals in the world.

Information Security Specialist warned: Banking operations are in danger

JANUARY 13

2021

After the Whatsapp application submitted to its existing users the new data sharing policy, which will come into effect as of February 8, it has brought many discussions. Information security expert Lect. Tuğçe Yüksel, who gave information about the data to be shared and the problems that can be experienced in sharing, said: "The realization of security passwords with facial and voice information in the control of electronic devices, online commerce and banking transactions constitute this vulnerability."

The instant messaging application WhatsApp announced that it introduced a new privacy policy for users outside the European Union at the beginning of last week and that it will share its data with Facebook and its companies as of February 8, which brought many discussions. Information Security Specialist

and Information Security Program Head Lect. Tuğçe Yüksel from Istanbul Gelisim University gave information about the data to be shared and the problems that can be experienced in case of sharing. Emphasizing that the new data sharing policy and the privacy policy conditions approved by the users create a major security problem, especially in terms of video and audio recordings, Yüksel said: "The realization of security passwords in the control of electronic devices, online trade and banking transactions with facial and voice information creates this vulnerability".

Sudden vision loss can be treated

JANUARY 13

2021

Reminding that the temporary or permanent decrease in vision due to many different reasons is called vision loss, Ophthalmologist Dr. Semih Doğan said that sudden vision loss can be treated with medication or surgery. Dr. Doğan said: “When sudden vision loss is treated late, it can cause serious problems.”

Loss of vision can be congenital or can occur in later periods. Making a statement during the White Cane Visually Impaired Week, Dr. Semih Doğan, an Ophthalmologist from Istanbul Gelisim University, stated that sudden vision loss can cause serious problems when treated late. Dr. Doğan said: “Sudden vision loss is a medical emergency. Stenosis or blockage in one of the vessels leading to the eye or the visual center of the brain may be a sign of

sudden vision loss. It should be seen by the ophthalmologist within a few hours. Sometimes it may be due to diseases that cause conduction disorders in the eye nerves, not in the vessels.”

How much do we protect the white cane?

JANUARY 13

2021

Within the White Cane Visually Impaired Week reminding that 2.2 billion people in the world have vision impairment or loss of vision according to the World Health Organization, Abdülkadir Gayretli stated that 86% of the visually impaired people are unemployed and talked about the importance of disabled employment. To the question “How much do we protect the white cane?” Gayretli answered: “We could not reach the desired point in the employment of the disabled.”

“86% OF THE VISUALLY IMPAIRED PEOPLE ARE UNEMPLOYED”

Emphasizing that only 1578 persons with disabilities of 11,700 visually impaired applicants are employed in Turkey according to the data of İŞKUR, Abdülkadir Gayretli, Chairman of the Board of Trustees of Istanbul Gelisim University, said: “86% of the visually impaired are unemployed. We have not reached the desired point in the employment of the disabled. Visually impaired people and the White Cane need to be protected more.”

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.
