LATEST NEWS FROM IGU

Prof. Dr. Ismet Cavusoglu, a faculty member of the Graphic Design Department of the Faculty of Fine Arts, opened his personal painting exhibition at SASAV Art Gallery, where he met with art lovers. The opening of the exhibition took place on November 24, 2023.

In the event organized by the Child Development, Audiology and Orthosis and Prosthesis departments under the leadership of **Vice Dean Asst. Prof. Dr. A. Yuksel Barut**, topics such as the founding stages of our Republic, the hat revolution, the right to vote and be elected for women, the importance our Ata gave to religion and religious people, and the development of industry were discussed, while the enthusiasm for the republic was discussed.

At the event, the importance of women who protect and preserve the values of the republic was emphasized. It was stated that women, who strengthened the character of the Republic as a democratic, secular, social state of law, contributed to the growth and development of the country. The importance and trust given to women by the founder of the Republic, Mustafa Kemal Atatürk, was also reminded.

“2023-2024 ACADEMIC YEAR WHITE COAT CEREMONY” WAS HELD

27 NOVEMBER / 2023

Istanbul Gelisim University Faculty of Dentistry organized a “2023-2024 Academic Year White Coat Ceremony” for students who have just started the faculty this year. Soner Can Dinler performed a violin concert at the ceremony, which started with a stance of respect and the National Anthem. After Chairman of the Board of Trustees **Abdulkadir Gayretli's** and **Dean of the Faculty of Dentistry Prof. Dr. Mahir Günday's** opening speeches, the students who started the faculty this year wore their white coats.

THINKING THAT THE REASON OF THE HEADACHE IS A BRAIN TUMOR: CYBERCHONDRIA!

29 NOVEMBER / 2023

It is often the case that they type their health problems into the search engine on the internet, have them searched and try to diagnose the disease. Stating that individuals' repeated searches on the internet about their health are called “Cyberchondria”, **Psychologist Res. Asst. Irem Uyar:** “Have you ever thought that you have a brain tumor when you look on the internet to find out the cause of your headache? The information obtained as a result of searching for health problems on the internet can increase the concerns even more.”

DRONE ERA IN AGRICULTURE: EFFICIENT USE OF WATER RESOURCES IS POSSIBLE WITH DRONE TECHNOLOGY!

9 OCTOBER / 2023

The use of drones in agricultural production is becoming increasingly common in Turkey. Stating that drones are an important technological development in the agricultural sector, **Asst. Prof. Dr. Hacer Handan Demir**, “The most important advantage of drones is undoubtedly irrigation management. Drones can help optimize irrigation processes by measuring soil moisture and plant water requirements. This enables more efficient use of water resources, which is today’s most important issue, and reduces irrigation costs.”
