NEWS**'Masked depression' in children is not noticed****NOVEMBER 22, 2019**

Psychiatrist Assoc. Prof. Dr. Sevcan Karakoç Demirkaya stating that it is difficult to understand the 'masked depression' used for people who seem happy, smiling but suffering inside, said: "Young people appear to have fun and often wander with a smile on their faces. Therefore, families cannot recognize the 'masked depression' of their children."

Assoc. Prof. Dr. Sevcan Karakoç Demirkaya said: "Masked depression is not easy to understand. These young people appear to have fun and wander with a smile on their faces. Therefore, families cannot recognize the depression in their children. Those with masked depression usually say, that 'under the smile my heart bleeds'."

Students received training on Effective Communication from Şükrü Kaya

NOVEMBER 28, 2019

Istanbul Gelisim University (IGU) Education Support Coordinatorship organized the training on "Effective Communication, Body Language and Presentation Techniques". Academic and administrative staff of the University participated in the training given by Radio and Television Program Producer, Training Coach Lect. Şükrü Kaya.

Emphasizing that the correct transfer of information is very important for the academy, Kaya said: "Academy is all about transferring information. If people do not understand what you exactly mean, they get it the way they want. Then they would have no chance of doing an academic study. Therefore, we must use the communication correctly. We also

need to confirm whether we are understandable by listening to them."

Expert Physiotherapist Turhan told the manual treatment methods

NOVEMBER 28, 2019

Istanbul Gelisim University (IGU) Physiotherapist and Rehabilitation Club hosted Expert Physiotherapist Doruk Turhan. Expert Physiotherapist Doruk Turhan, who completed his master's degree in chiropractic, shared both his professional experience and his knowledge of manual treatment methods with the students.

Turhan stated that manual therapy is a manual treatment by physiotherapists, and said that manual treatment techniques can be effective in which patient group and which patient group should not be intervened in any way

Attention to falls in winter

NOVEMBER 29, 2019

Stating that the health problems due to falls will increase with the upcoming winter months, Physiotherapist Gülşah Konakoğlu said: “It is very important to know safe walking techniques to prevent possible falls and safe fall techniques to prevent possible problems after falling.”

Falls can result in a variety of consequences, from simple remedial health problems to vital risks. However, it has an important place among health expenditures. Stating that health problems due to falls will increase with the upcoming winter months, Physiotherapist Lect.
