'Role model' warning from psychiatrist to teenagers

SEPTEMBER 16

2020

Psychiatrist Onur Okan Demirci, warning young people as a role model, said: "The person who is taken as a role model is imitated by the person who takes his/her as a role model from the lifestyle to his/her eating pattern."

Psychiatrist Onur Okan Demirci from Istanbul Gelisim University, who stated that the phenomena of the movement created by the image and lifestyle of the music groups called "K-Pop", especially from South Korea, are accepted as idols and symbolized by the young population, said: "Meeting with different music cultures surely enriches our lives. However, the worlds that are in the infrastructure of these cultures can affect us, especially the young population. In today's world, behaviors, speech styles, hairstyles, clothing designs, relationships and communication styles are shaped according to

these popular cultures."

Additional preferences for university applicants started

SEPTEMBER 17

2020

Additional preferences have begun for students who have not yet been able to enter a university after the YKS university placement results. Applications for vacant quotas will be made between 17-23 September. Applicants will make preferences for 57 thousand vacant and unregistered quotas. Providing information about who can apply for additional preferences, Guidance Specialist Elif Alu Gulen said: "In central placement, it is necessary to not be placed in any higher education program. Candidates who have been placed in a higher education program with a special talent examination in 2020-YKS can also choose for additional placement."

"THEY HAVE A RIGHT FOR 24 PREFERENCES"

Reminding that applicants have 24 preferences in Additional Placement, Guidance Specialist Elif Alu Gulen from Istanbul Gelisim University said, "The applicant who will make additional placement can make any number of choices provided that they do not exceed 24 choices. Make sure that you have spelled the correct program codes in the preference list you will create. A applicant can only qualify for one program, no matter how high their scores are. For this reason, create your preference list according to the section you want the most and the section you want at least."

The right time and the right cooking are essential for delicious fish

SEPTEMBER 18

2020

Lecturer of Cooking Program Levent Demirçakmak emphasized that the fish should be cooked with the right technique in order to get the best taste in fish consumption. Demirçakmak said, "Fish must be cooked in different times at different techniques, otherwise we can cool people from seafood."

Following the end of the fishing ban that started on April 15, the fishing season has recently started. The opening of the season brought along the questions of 'what should we pay attention to when buying fish', 'which variety is more beneficial to consume' and 'how to cook'. Providing information on the tricks of fish consumption, Istanbul Gelisim University Cookery Program Instructor and President of the Cookery School Alumni Association Levent Demirçakmak also explained that especially fish should

be cooked in different time periods with different methods.

IGUZEB

Istanbul Gelisim University Distance Education

Due to COVID-19, distance education process has started in universities in accordance with the decision taken by the **Council of Higher Education (YÖK)**. Istanbul Gelisim University **Distance Education Unit (IGUZEB)**, which has been operating since 2016, works at full capacity in order to continue the educational life of students efficiently in this process, with its technical infrastructure and experience.

IGUZEB has made that its vision to increase the knowledge and experience of our faculty members to the level of **international e-learning standards** with the use of distance education technologies aiming the life-long and unlimited learning awareness of distance education as student-centered, independent of time and place. In this context, it continues to work on digital content development with technologies based on e-learning, by providing the necessary technical support to existing **associate, undergraduate and graduate programs** carried out within our university.

In this challenging process that our country and the world live, our students can follow their lessons with the distance education system and access **the course content such as video, notes, test** prepared by our faculty members with the support of digital infrastructure. They can view their homework and deliver their homework to their lecturers through the same system.

The system provides the opportunity to attend live classes and communicate simultaneously with their lecturers, and then watch the course video again. Our students can enter the exams of the courses they are responsible for online. In the exam system, **questions and time have been meticulously prepared** in accordance with this infrastructure. All these materials are accessed through a computer, tablet or mobile device with internet connection. If our students have any questions about the process, after they send support requests, our personnel will help them.

As IGUZEB, we work to provide the most efficient education by using of all the possibilities of **digital technology** in order to avoid interruption of education.
