60 percent of the European side and 40 percent of Asia are at risk

NOVEMBER 10 2020

Geological engineer Prof. Dr. Haluk Selim, regarding the earthquake, which is one of the most important topics of Istanbul, said: "If we assume that the North Marmara Fault Line, which is about 100 kilometers long, has accumulated a stress of 5 meters, its maximum and minimum range is 7.2 to 7.4. The calculation for this is clear. 40 percent of the Anatolian Side and 60 percent of the European Side are at risk."

After the 6.6 magnitude earthquake that occurred on the north of Samos Island on October 30, all eyes were turned to the expected possible Istanbul earthquake. Experts on the earthquake that has accumulated energy in the Northern Marmara Fault Line since 1999 and which is likely to affect Istanbul, especially in the Marmara region, continue to warn about the high destruction due to the population density and the high number of old buildings. In this sense, he was involved in the works carried out on the Northern Marmara Fault Line and in the light of scientific researches and data, Geological Engineer Prof. Dr. Haluk Selim from Istanbul Gelisim University, who experienced the 1999 earthquake, gave information about the earthquake, which is one of the most important topics of all Istanbul. Prof. Dr. Haluk Selim said: "If we assume that the 115 kilometers long Northern Marmara Fault Line has accumulated a 5-meter stress pulse, the maximum and minimum interval is 7.2 to 7.4, and the calculation is clear." Making evaluations for the Asian and European sides, Selim said: "40 percent of the Anatolian side and 60 percent of the European side are at risk".

Education scholarship for national athletes from Istanbul Gelisim University

NOVEMBER 12

2020

According to the historical agreement signed by the Ministry of Youth and Sports with 52 foundation universities, elite athletes who have achieved success at the international level can receive full scholarship education at foundation universities within the framework of the 'Hundred Percent Sportsman Scholarship Agreement'. Istanbul Gelisim University has announced that it provides 100% education scholarships to national athletes.

In accordance with the memorandum of understanding signed between the Ministry of Youth and Sports and 52 foundation universities, national athletes certified to be successful in the following sports fields in the last four years are awarded 100 percent tuition fee reduction by the relevant foundation university if they are placed in the said foundation universities according to the YKS result.

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
