Turkey has logistics infrastructure to carry out vaccine coming from abroad

DECEMBER 8

2020

China-based coronavirus vaccine that Turkey has ordered CoronaVac came first results of the third phase of the experiment. Asst. Prof. Dr. Kadir Mersin said that it is advantageous to carry and store the Chinese vaccine.

The first results came from the third phase experiments of the coronavirus vaccine CoronaVac developed by the China-based Sinovac company. Indonesia-based company Bio Farma announced that they found CoronVac to be up to 97% effective in initial trials. Faculty member Istanbul Gelisim University International Logistics and Transportation Department Asst. Prof. Dr. Kadir Mersin said that as a country, we have a logistics infrastructure to carry vaccines.

Physiological balance and harmony can be restored with yoga**DECEMBER 9****2020**

Saying that yoga supports the immune system, Asst. Prof. Dr. Çiğdem Öner said: "Physiological balance and harmony can be re-established with yoga."

Referring to the fact that the Covid-19 pandemic is a phenomenon that keeps health-related stress experiences strong, Asst. Prof. Dr. Çiğdem Öner, from Istanbul Gelisim University, said: "When coronavirus is combined with stress, anxiety and fear, it can turn into a state that fluctuates the entire balance of the organism. It can also cause negative reflections on our immune systems. It is reported that an individual with strong immunity is more successful in combating coronavirus infection. The most common measure recommendation we encounter is to strengthen immunity. Today, we witness

numerous Yoga organizations and Yoga experts frequently voicing Yoga and Yoga-based lifestyle recommendations to help people stay mentally healthy and promote optimal immune functions during the current pandemic."

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
