BIONIC ROBOT ARM AND HAND PROJECT AT TEKNOFEST FINAL

SEPTEMBER 21 2021

The team named Parzival Robotics, which is among the finalists of the Aviation, Space and Technology Festival TEKNOFEST Technology Contest for the Benefit of Humanity, Disabled Friendly Category, took its place in TEKNOFEST with its "Bionic Robot Arm and Hand" project. The "Bionic Robot Arm and Hand" can perform its movements with the EEG brain wave control sensor.

"IT WILL BE USED FOR AMPUTEES"

Electrical and Electronics Engineer, who is the mentor of the project team Lect. Ekrem Süzen made statements about the project. Stating that they made it to the finals with a robot hand project that has different control types than the robot hands produced today, **Asst. Prof. Ekrem Süzen said**, "We

have 3 control types, first with Flex Sensor, Muscle signals (EMG) and finally with Brain waves (EEG). The most important area where we can use this project will be people who have lost any of their limbs."

BUSINESS AND ACADEMIC LIFE EXPLAINED IN THIS BOOK

SEPTEMBER 22 2021

once again this reality hit us in the face.”

Prof. Dr. Kenan Özden's book “Total Crisis Management - A Holistic Approach with Business and Department Strategies and Policies”, prepared within the framework of his experiences, knowledge and research in business and academic life, made its 3rd edition.

From Istanbul Gelisim University (IGU) Faculty of Engineering and Architecture. Prof. Dr. Kenan Özden stated that he prepared the book for two main purposes. Dr. Kenan Özden said, “Businesses and institutions should be able to deal with crises in the most effective way and overcome them with as little damage as possible. The coronavirus global epidemic, which has affected the world for the longest time, caught all public institutions, businesses and households unprepared, causing great loss and pain, and

OUR AIM IS A SUSTAINABLE WORLD

SEPTEMBER 24 2021

Sustainable Development Goals, which is a universal call for action that includes the goals aimed to be achieved by the United Nations (UN) member countries by the end of 2030, is again on the agenda with the ‘Sustainability Week’. Making statements on the Sustainability Week, **Prof. Dr. Nail Öztaş** said, “Human beings need to establish a way of life and a way of existence that is at peace with other living things, paying maximum attention to their right to exist and live. That’s why sustainability is important. Our goal is a sustainable world.”

Emphasizing that the warnings made by climate scientists have already started to become real, Prof. Dr. Nail Öztaş said, “The difficulties, problems and troubles we have been experiencing in the world in recent years show us that scientists have made a very justified diagnosis for 20-30 years. Some predictions have been made by climate scientists, ecologists and environmental scientists for a long time, such as that by 2024, there will be droughts around the world, that water levels will rise, and that severe droughts and floods, and excessive precipitation may coexist in geographies that are close to each other at the same time. We have started to see floods, droughts and fires at the same time in these 2-3 last years.”

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
