## ABOUT ISTANBUL GELISIM UNIVERSITY

As a higher education institution, Istanbul Gelisim University (IGU)'s main policy is to establish and maintain an education system that enables the acquisition of the knowledge and skills needed to ensure dissemination of perceptions, values, attitudes and behaviors towards the concept of sustainability in this transformation process that societies are in for a sustainable world.

### Mission and Vision

As Istanbul Gelisim University, we have the vision of being one of the World Universities that produce value for continuous IMPROVEMENT.

### Vision

To be one of the WORLD UNIVERSITIES that produce value for continuous IMPROVEMENT.

### Mission

**G**elisim's goal is to add value to the city, society and humanity,  
**E**ducation, research and community service practices compose its vital duties; while,  
**L**eadings competent people and those who use the resources effectively and accountably for a world,  
**I**n which goodness, fairness and sustainability are integrated;  
**S**imply believing in research ethics and freedom in its activities,  
**I**nternalizing a quality and tolerance atmosphere and,  
**M**astering in physical, social, cultural, psychological and digital realms, GELISIM keeps on improving.

IGU Mission and Vision

## ADMINISTRATION

In 2008, the "Gelisim Education Culture Health and Social Service Foundation", which attempted to establish a Vocational School named "Istanbul Gelisim Vocational School", started its education life with the Vocational School established on 14 June 2008 by the Ministry of National Education and the Council of Ministers.

With the law numbered 6114, Istanbul Gelisim University was established on February 17, 2011 with the step taken to become a "world university", and it continues the academic year 2022-2023 with an Institute of Graduate Studies, 6 Faculties, 2 Vocational Schools and 2 Schools. Istanbul Gelisim University, which grows every year with solid steps taken with the aim of becoming a university that has a voice in the world, is one of the most preferred universities among Turkey's foundation universities.

A total of 65 programs of Istanbul Gelisim University, which cooperates with leading institutions in its field and attaches great importance to internationalization in order to achieve global success, have been thoroughly examined and accredited by international delegations appointed by German, British and American accreditation institutions such as AQAS, AHPGS, ABET and PEARSON. Having achieved the success of being the university with the most accredited programs in Turkey, Istanbul Gelisim University has attracted worldwide attention with the steps it has taken to become international.

IGU advocates that higher education is the most important tool for sustainable development. Today, IGU offers education and training opportunities to its national and international students with 6 faculties, 2 Schools, 2 vocational schools, 70 bachelor's programs, 61 associate degree daytime programs, 34 associate degree evening programs, besides 33 thesis / 33 non-thesis graduate programs, and 7 doctoral programs. Cooperating with more than 130 world universities, Istanbul Gelisim University also motivates its associate degree, undergraduate, graduate and doctoral students to become international.

# Our Perception of Sustainability

## **Purpose of Report**

IGU Sustainability Status Report has been prepared to evaluate the status of studies, goals and policies in the field. IGU has continued its sustainability initiatives since its establishment in 2008. This report covers IGU's sustainability studies carried out in 2022 and before.

Reporting of Goals and Policies  
Sustainable Development  
Goals-SDG  
**Goals, Targets and Policies**

# 1 NO POVERTY

The fact that poverty is both a national, regional and global problem and taking micro-level steps to solve this problem with a global perspective is one of the situations frequently emphasized by the United Nations (UN). Our university, especially with a global perspective, acts with the understanding of development-oriented education at the micro level, and acts together with the young and entrepreneurial generation in the fight against poverty.

## ACTIONS

### Social Responsibility Research and Application Center-SSUAM

IGU SSUAM aims to conduct or have others to conduct research and applications on social responsibility issues, and to announce the results to the public.

### Career Center

It is aimed to bring highly qualified individuals equipped with knowledge and skills to social life, and by this way, to contribute to the development of quality of life by making a significant difference.

### Our Scholarship Opportunities

By IGU, scholarship opportunities such as 100%, 50%, 25% scholarship, preference scholarship, trustee scholarship, sibling scholarship, success scholarship, R&D and International Baccalaureate Scholarship are provided.

### Entrepreneurship Trainings

For our students, who want to be entrepreneurs and start their own business; it is aimed to have information about entrepreneurship processes, support and incentives, establishment stage, business types, establishment procedures, e-commerce platforms and registration to platforms, KOSGEB incentives, and project writing processes to benefit from incentives.

### IGU Entrepreneurship Program

#### Business Establishment Support for Sustainable and Innovative Ideas

It is aimed to provide financial and technical support in order to support the projects and initiatives of our students.

### IGU Four Awareness

# 2 ZERO HUNGER

**End hunger, achieve food security and improved nutrition and promote sustainable agriculture**

With the increase in the world population, the sustainable use of scarce resources and the direct access of individuals to healthy food sources are the two most fundamental issues in the fight against hunger. Being aware of these two facts, our University takes steps to ensure clean and healthy nutrition and its dissemination in society.

## ACTIONS

### **Policy of Waste Management and Reducing Environmentally Harmful Products**

With the waste management policy, it is aimed to reduce the generation of waste, and reduce the use of natural resources and to ensure waste management through ways such as reuse, recycling and recovery of wastes.

### **Sustainable Nutrition Education - Nutrition and Dietetics**

Trainings are provided for the acquisition of sustainable eating habits and raising awareness. You can find examples of the courses offered at our university from the links below.

**SYY349-Sustainability in Health Services**

**BEY241-Nutrition Ethics and Counseling**

**BEY243-Introduction to Community Nutrition**

**BEY246-Nutrition in Community Health**

**BEY347-Assessment of Nutritional Status in the Community**

### **Food Facilities - Gastronomy and Culinary Arts**

By IGU Gastronomy and Culinary Arts Department, the approaches on preventing waste, waste management and protecting biodiversity have been shared.

### **Biodiversity, Waste and Waste Management**

# 3 GOOD HEALTH & WELL-BEING

## Ensure healthy lives and promote well-being for all at all ages

The approach that healthy living is the fundamental right of every individual and that successful development can be achieved with healthy societies is frequently emphasized in the reports of the UN. Has the aim of ensuring every individual in the society enjoys fundamental rights, our university has an effort to ensure this by taking steps both inside and outside the institution.

## ACTIONS

### Times Higher Education (THE) Impact Ranking

Our university has been ranked 12th in the category of "Good Health and Well-Being" in Turkey.

### Disabled Counseling and Coordination Unit Directiv

To regulate the structuring and working principles of the Unit in order to take the necessary measures and make arrangements in this direction in order to facilitate the education life of the disabled students studying at Istanbul Gelisim University since 2015.

Engelli Danışma ve Koordinasyon Birimi Yönergesi / <https://engelsiz.gelisim.edu.tr/tr>

### IGU Oral and Dental Health Application and Research Center (ADSUAM) Merkezi (ADSUAM)

ADSUAM, with its strong academic staff, aims to progress as an innovative and reference institution, which increases the quality of oral and dental health treatment services and able to respond to the needs in this field at an international level, in a clinical environment with advanced technological infrastructure, and to become a world brand in its field.

### IGU ADSUAM / IGU Faculty of Dentistry

### Smoke Free Campus

As of 2018, the "Smoke-Free Campus" practice has been started in the buildings and outdoor areas of all IGU campuses.

### Smoke Free Campus Practice

### Smoke Free, Alcohol Free, Drug Free, Healthy and Hygienic Campus Policy

IGU Directorate of Health, Culture and Sports (SKS) - Medical Facilities  
At Rectorate Building / Faculty of Applied Sciences-Faculty of Health Sciences-Health Services  
Vocational School; there is 1 Nurse and 1 Psychologist.

## 4 QUALITY EDUCATION

Within the scope of the United Nations "Quality Education" goal, it focuses on increasing the number of young people with high technical skills and vocational education levels, while prioritizing access to educational opportunities for everyone. Especially in today's world where poverty is a serious obstacle to accessible education, Istanbul Gelisim University follows an education policy open to all segments of our society, including vulnerable groups, with scholarship opportunities.

On the other hand, activities are carried out in relation to the integrated education system that combines the dynamism of the youth and the technical skills of our qualified academic staff and their expertise in vocational education

### Education Policy

Our University started to implement the education policies at associate, undergraduate and graduate levels in 2018.

### THE Impact Ranking

Our university has been ranked 16th in the world in the field of „Quality Education“. In Turkey, it achieved the 1st rank. This success is for the last 3 years.

### Accreditations

It covers the determination and implementation of education policies according to the standards set by internationally recognized institutions.

### International Accreditations

#### International Accreditation Certificates

#### International Accredited Programs

#### IGU Continuing Education Center (SEM) Lifelong Learning

Focusing on lifelong education and professional life needs; it provides modern and privileged education and training services with its modern, contemporary education and training environment, well-qualified and experienced instructors having academic and professional knowledge. <https://sem.gelisim.edu.tr/>

### Peer Mentor Students

Comprised of students who have strong communication skills and are prone to teamwork, this is a program run by IGU Career Center for department leader students who take an active role in career center studies, produce and implement projects, and are in contact with both the sector and their peers.

### **Peer Mentoring Program Project**

#### **Peer Mentoring Program**

##### **IGU Student Clubs**

There are 82 active student clubs that are coordinated by IGU SKS and established for specific purposes by our students and academic staff.

##### **2021-2022 Events List**

##### **2020-2021 Events List**

##### **Sustainability Courses**

It covers trainings and courses for Sustainable Development Goals at our University.

### **IGU General Information System**

#### **Alumni Tracking System**

It is aimed to determine the employment areas, graduate profiles and institutional capacity of the students who have completed their education.

##### **IGU Alumni Portal**

## 5 GENDER EQUALITY

With the idea that it is possible to reduce gender inequalities, especially by ensuring the participation of women in education life and employment fields, this problem is directly combated by both our students studying at our University and our female staff having work values.

### ACTIONS

#### Gender Equality Policy

With the mission of education, research and advocacy, policies that aiming to develop remedial policies for ensuring gender equality between women and men and removing the obstacles in front of women's career development due to prejudices created by established social roles were implemented in 2018.

#### Gender Equality Policy

#### Women and Disadvantaged Student Support Policy

#### Alumni Tracking System

It is aimed to determine the employment areas, graduate profiles and institutional capacity of the students who have completed their education.

#### IGU Alumni Portal System

## 6 CLEAN WATER AND SANITATION

The UN has stated that equitable and sustainable use of natural resources, as well as direct access to clean water for all, are some of the global problems. In this direction, it is expected that responsibilities will be assumed by each stakeholder in taking steps.

Our university also fulfills the necessary responsibility, by raising awareness in the public with the necessary reports, especially on the reuse of waste water, and exhibits proactive interventions with studies.

### ACTIONS

#### **Drinking Water Areas – Policy of Waste Management and Reduction of Environmentally Harmful Products**

Waste management policy, which is a set of strategies, including short and long-term programs and policies, prepared to ensure waste management in an environmentally friendly manner, was put into practice in 2018.

#### **Policy of Waste Management and Reduction of Environmentally Harmful Products**

#### **Water Management and Consumption**

Since 2020, it has been carrying out studies on clean water and sanitation in line with the UN-SDG with the vision of a sustainable future in cooperation with stakeholders within the policies implemented in campus areas.

#### **Water Management**

# 7 AFFORDABLE AND CLEAN ENERGY

Ensuring environmentally friendly energy supply with low carbon emissions is one of the tools to be used by the UN in solving climate problems. In line with this awareness, our University both accepts the use of renewable resources in the buildings both in the campus and outside the campus as a policy, and also takes the necessary initiatives.

## ACTIONS

### THE Impact Ranking Results

Our University has been ranked 4th in the category of Affordable and Clean Energy in Turkey. It has received Renewable Energy Source Guarantee System Certificate.

### Renewable Energy Source Guarantee Certificate

### Policies and Current Statistics

Policies including resource determination, efficient use of resources within the institution and assessment of the same were implemented in 2022.

### Environmental policy

### Smart Building Campus

Our University, which is on the way to become a university that produces its own needs; for building a Solar Power System for electricity generation

### SDG 7 2021 Report

### Carbon Footprint and Policy of Carbon Emission and Nature Conservation

The approaches, which were determined by our University as the basic principle of raising awareness of the society and ensuring the transformation within itself in order to protect nature and ensure the sustainability of the environment, started to be implemented in 2018.

### Policy of Carbon Emission and Nature Conservation

## ACTIONS

### Decent Work and Fair Pay Policy

Fair, objective, appreciating high performance, competitive, rewarding and motivating criteria are taken into consideration. In pricing; language, race, color, gender, political opinion, belief, religion, sect, age, physical disability and similar features are not accepted as criteria and no discrimination is applied.

### Decent Work and Fair Pay Policy

### Policy against Wage Discrimination

### Human Resources Policy

Our University has formed a team with happy employees who embody the corporate culture, productivity, job satisfaction and high motivation. Believing that these features will lead to success in the field of education and training, it aims high success.

<https://www.ik.gelisim.edu.tr>

### Higher Education Council (YÖK)'s Minimum Criteria

National standards are taken as a basis in determining the minimum requirements for the personnel who will work as academic staff.

### YÖK's Minimum Criteria

### Foundation-Public Universities

### Foundation Universities Evaluation Report

## 8 DECENT WORK AND ECONOMIC GROWTH

Despite being included in the means of production, the unfairness of the labor-wage balance is one of the main problems of most employers and workers engaged in economic activities. The working principles and wage policies of our academic and administrative staff working at our University are established in line with the standards determined by the national legislation and the International Labor Organization.

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

The neo-liberal approach, that regional development will be possible with high added value successful industrialization policies including high technology is suggested by the UN and its sub-organizations. In accordance with these suggestions, our University has been taking exemplary steps in terms of providing financial, technical and capacity-enhancing support to young entrepreneurs in line with expanding youth employment areas and integrating these areas with high-tech components.

### ACTIONS

#### **IGU Technology Development Center (TEKMER)-KOSGEB Collaboration**

The aim of the TEKMER support program is to establish and operate structures that will provide services to ensure the establishment and maintenance of enterprises in line with national plans and programs, with cooperation between actors in the entrepreneurship ecosystem. <https://tekmer.gelisim.edu.tr/en/administrative-homepage>

#### **IGU Scientific Research Projects Application and Research Center**

Ensuring the dissemination of research projects that will benefit our country and encouraging interdisciplinary cooperation. <https://bapk.gelisim.edu.tr/en/administrative-homepage>

#### **Number of R&D Laboratories**

It has high-tech laboratories in order to translate the theoretical knowledge of all departments into practice. There are 138 laboratories, workshops and studios in total. <https://gelisim.edu.tr/en/content/laboratories>

#### **Number of Patents**

<https://kalite.gelisim.edu.tr/en/administrative-news-igu-became-the-patent-application-champion-in-the-first-half-of-6239>

## ACTIONS

### Equal Opportunities Policy

The fundamental policy of the University enables the establishment of an education system based on equality of opportunity which provides opportunities, removes obstacles, and which is libertarian, egalitarian, safe, effective, participatory, accountable, quality and people-oriented.

### Equal Opportunities Policy

#### Women and Disadvantaged Student Support Policy

Establishment and operation of an education system that takes steps towards the needs of disadvantaged individuals at the university in which races, languages, colors, religions, sects and genders act with an equal and unifying understanding is the basic policy of the University adopted since 2018.

#### Women and Disadvantaged Student Support Policy

#### Respect for Diversity Policy

The University explicitly addresses the social, ethical and religious dimensions of the problems it encounters in education, research and service. The University is guided in all its activities by a fundamental concern for justice, equality and dignity of all people.

#### Respect for Diversity Policy

#### Disabled Counseling and Coordination Unit Directive

It regulates the structuring and working principles of the Disabled Counseling and Coordination Unit in order to take the necessary precautions and make arrangements in order to facilitate the education life of disabled students studying in Istanbul Gelisim University.

#### Disabled Counseling and Coordination Unit Directive

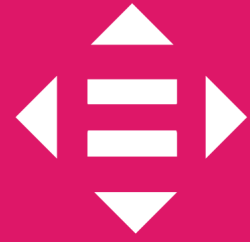

#### Our Scholarship/Internship and Employment Opportunities

Scholarship opportunities such as 100%, 50%, 25% and preference scholarship, trustee scholarship, sibling scholarship, success scholarship, R&D and International Baccalaureate Scholarship are provided.

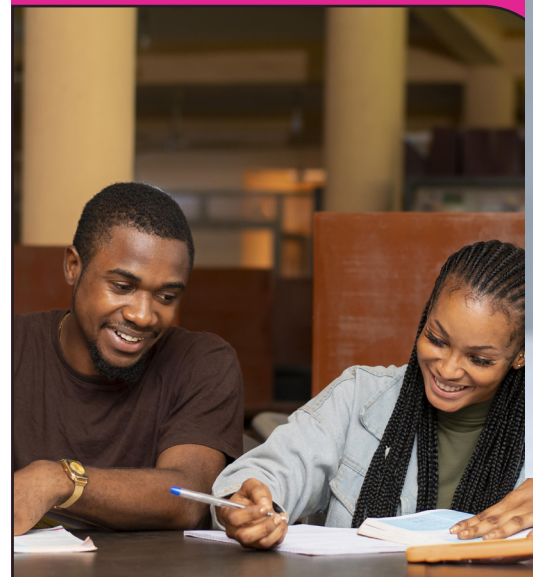

#### IGU Scholarship Opportunities

## 10 REDUCED INEQUALITIES

One of the priority issues by the UN is to ensure fundamental rights and freedoms for all, with the fair participation of vulnerable groups, which have become much more prominent with globalization, in social and economic life. With an effort to provide an equal and fair education and working space for everyone, our University actively takes actions to provide the necessary support, while producing solutions especially for the problems faced by vulnerable groups.

# 11 SUSTAINABLE CITIES AND COMMUNITIES

Studies conducted by the UN and its Affiliates show that 65% of the world's population will live in cities in the future. In this context, the city and urbanization phenomena become more important for a metropolitan city like Istanbul. Since the campuses of our University are in a metropolitan city like Istanbul, it directly contributes to these two phenomena with the projects it creates at the institutional level.

## **Istanbul Studies UAM**

Projects and activities related to smart cities, planned urbanization and high tech manufacturing are carried out. <https://sctuum.gelisim.edu.tr>

## **Carbon Neutral Campus**

The activities carried out by our University regarding the construction of environmentally friendly, smart and green buildings and campuses, as well as landscaping, are reported.

<https://gelisim.edu.tr/en/news/another-contribution-from-igu-to-sustainability-and-environmental-awareness>

## **Remote Access to the Library**

In accordance with our license agreement with electronic libraries and databases used in our University, access to databases can be provided from outside the campus with proxy settings.

<https://kddb.gelisim.edu.tr/tr/idari-duyuru-vekil-sunucu-proxy-sistemimiz-yenilendi>

**News about climate change** <https://kddb.gelisim.edu.tr/en/administrative-announcement-istanbul-gelisim-university-library-proxy-server-renewed>

Projects and activities related to smart cities, planned urbanization and high tech manufacturing are carried out. <https://sctuum.gelisim.edu.tr>

## **Low Emission Vehicles**

Projects are being developed for eco-friendly technological tools for the future. <https://gelisim.edu.tr/en/announcement/flying-car-%E2%80%9Ctusi%E2%80%9D-makes-debut-in-teknofest>

# 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

The UN attaches importance to the fact that the production, logistics and consumption of a service within its supply chains are reversible and at the same time sustainable. In this context, our University takes steps that create the necessary importance and awareness for the establishment of a sustainable supply chain, especially at the point of reuse of waste products.

## ACTIONS

### **Policy of Waste Management and Reducing Environmentally Harmful Products**

Waste management policy aims to reduce the use of natural resources and to ensure waste management through ways such as reducing waste generation, besides reuse, recycling and recovery of wastes.

### **Policy of Waste Management and Reducing Environmentally Harmful Products**

#### **Sustainable Supply and Supplier Policies**

From 2018 until now, in purchase of all goods and services needed, it prioritizes social, economic and environmental issues, by applying sustainable procurement principles based on high ethical standards, within the framework of a professional and qualified procurement policy.

#### **Sustainable Supply and Supplier Policy**

#### **Respect for Diversity Policy**

# 13 CLIMATE ACTION

The UN frequently emphasizes the universal responsibilities of stakeholders in all dimensions to act within governance, with a global perspective on climate problems, which constitute the main theme of sustainability. Taking it as its duty to fulfill universal responsibilities at this point, our University develops projects open to the participation of actors at all levels regarding combating climate problems and raises awareness at the individual level.

## ACTIONS

### Carbon Footprint Calculation - Zero Carbon

By determining the current emission situation by calculating the carbon footprint, IGU sees our situation according to the past data and determines the priorities of the plans to reduce the emissions.

## ACTIONS

### Water Management Policy

It carries out studies on clean water and sanitation in line with the UN SDGs with the vision of a sustainable future in cooperation with the stakeholders.

### Water Management Policy

### Policy of Waste Management and Reducing Environmentally Harmful Products

With the waste management policy, it is aimed to reduce the generation of waste, to reduce the use of natural resources and to ensure waste management through ways such as reuse, recycling and recovery of wastes.

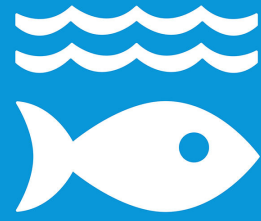

### Policy of Waste Management and Reducing Environmentally Harmful Products

### Projects related to Recycling

Projects are carried out by our students in order to ensure recycling processes and create awareness.

### If It Returns, It's Yours Project

# 14 LIFE BELOW WATER

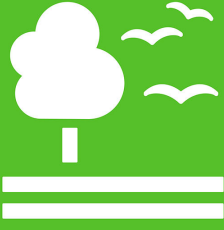

In the global goal of "Life below Water", which includes both clean water and direct access by everyone and biodiversity in aquatic life, guiding activities are carried out for states and individuals to take necessary precautions in all areas of life.

At this point, our university takes every precaution at the institutional level for the sustainable use of water. Details on the subject are available in the "Reducing Environmental Impact" section of the report.

# 15 LIFE ON LAND

It is frequently stated in the reports and workshops carried out by the UN that the protection of living biodiversity is of vital importance for the continuation of the biosphere and humanity. Our University also takes the necessary steps in accordance with the standards determined at national and international levels in order to protect biodiversity

## ACTIONS

### TS EN ISO 14001:2015 Environmental Management System

Processes are established for the determination and implementation of national standards related to interaction with the environment. Efforts for obtaining the Environmental Management System Certificate still continue.

### TS EN ISO 14001:2015 Environmental Management System

# 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

The UN, which set out with the hope of achieving global peace in 1945, approaches the security perceptions of individuals and societies from a holistic perspective.

Our University also takes the necessary initiatives and actions at individual levels in combating all aspects of violence and abuse, and takes a direct part in these processes.

# 17 PARTNERSHIPS FOR THE GOALS

It is frequently stated in the reports and workshops carried out by the UN that the protection of living biodiversity is of vital importance for the continuation of the biosphere and humanity. Our University also takes the necessary steps in accordance with the standards determined at national and international levels in order to protect biodiversity.

## University Ranking Results

IGU has shown an increasing momentum every year in the rankings of sustainability-related organizations.

According to the results of THE 2021, IGU, which ranked 1st in Turkey in the SDG 4 Quality Education category, ranked 2nd in the Affordable and Clean Energy category and 3rd in the SDG 17 Partnerships for the Goals category.

### TIMES HIGHER EDUCATION (THE) 2021

	WORLD	TURKEY
Overall Ranking	201-300	3
SDG 4: Quality Education	24	1
SDG 7: Affordable & Clean Energy	95	2
SDG 17: Partnerships for the Goals	201-300	3

## R&D Activities

IGU has many research centers established to participate in R&D activities and to encourage teaching staff. The main focus of the "Sustainable Environment and Community Application and Research Center", which is one of these research centers, is to carry out all activities related to sustainability. (IGU Sustainable Environment and Community Application and Research Center) Additionally, IGU has spent 14.24 percent of the university budget on sustainability activities, including R&D studies.

### SCIENTIFIC STUDIES

The concept of "Sustainability", which is the main theme of IGU, is also the basic principle and the most important focus in research applications. For this reason, IGU evaluates its academic studies in line with the Sustainable Development Goals.

Distribution of 2021 publications according to Sustainable Development Goals is presented in the chart. Accordingly, the SDG 8 Decent Work and Economic Growth target with 87 publications ranks first, and it is followed by the SDG 7 Affordable and Clean Energy target with 73 publications and the SDG 13 Climate Action target with 64 publications. 53.4% of the total publications made in 2021 are related to the UN Sustainable Development Goals (Figure 1).
