2024

Volume 4 / Issue 05

myo.gelisim.edu.tr

Dear Young People,

Istanbul Gelisim Vocational School, which started its education life in 2008, started to publish a monthly E-Bulletin as of 2021. We are very happy to bring you the May issue of our e-bulletin and to share with you the developments in our Vocational School. I believe you will enjoy reading our bulletin and I present my greetings and respect with the hope of meeting you in a new issue.

You can follow all the developments in our Vocational School on our social media channels.

Director of IGVS
Assoc. Prof. Lokman KANTAR

LEADERSHIP

ACADEMICIANS FROM IGU ARE ON THE "BEST SCIENTISTS" LIST OF THE WORLD AND COUNTRIES!

Research.com, one of the world's leading research and academia portals, has announced the list of the "Best Scientists" of the world and countries. Istanbul Gelisim University academics were shown among the best scientists in Turkey and the world with their degrees in "Engineering and Technology", "Economy and Finance" and "Neuroscience".

Great success in the fields of "Engineering and Technology", "Economics and Finance" and "Neuroscience"!

Istanbul Gelisim University, which is modern, developing, producing and advancing with an understanding of quality education, stands out with its science, technology and R&D studies. According to the list created on the basis of the D-index created for the purpose of measuring, evaluating and monitoring the performance of scientists in terms of scientific productivity. 3 academicians from Istanbul Gelisim University were included in the list of "Best Scientists" with their successful work.

Istanbul Gelisim University Rector Prof. Dr. Bahri Şahin ranked 17th among 47 scientists from Turkey and 4020th in the world in the field of Engineering and Technology.

Prof. Dr. Kemal Sıtkı Türker from IGU Faculty of Dentistry achieved an important success by being 4th among 6 scientists from Turkey and 5870th in the world.

Asst. Prof. Dr. Festus Victor from the Faculty of Economics, Administrative and Social Sciences of IGU was the only scientist from Turkey to be ranked in the field of Economics and Finance, and he was ranked 1183 in the world.

IGU's Great Success in TUBITAK 2023 Competency Map Report

Istanbul Gelisim University took place in 17 of 21 main research areas and 62 of 132 sub-research areas in the TUBITAK 2023 competency map. IGU has come to the fore among Turkish universities in terms of both quality and research intensity in 9 of the main research areas and 26 of the sub-research areas.

The fields in which our university stands out both in terms of research quality and research intensity. Its ranking among Turkish universities are given in the table below.

We thank all academic staff who contributed.

The ranking of research areas of Istanbul Gelisim University among Turkish universities in terms of quality and research intensity according to the TUBITAK 2023 Competency Map

Main Research Area	Sub-Research Area	Quality Ranking in Turkey	Research Intensity Ranking in Türkiye
Information and Communication Technologies	Information security	1	4
	Big Data	15	43
	Broadband Technologies	3	6
	Internet of Things	4	8
	Robotic	7	40
Social and Humanities	Law	1	8
	Economy	2	22
	Business Administration	4	23
	Public Administration	1	1
	Urbanization	1	27
	Mass Communication	7	45
	Politics and International Relations	1	9
	Sociology	1	24
	Transportation Rail way Systems	1	16
Environmental Sciences	Logistic	1	17
	Meteorology	1	11
Energy	Coal	1	3
	Bioenergy	15	71
	Energy Storage	2	55
Physics	Solar energy	23	65
	Statistical Physics	22	37
Aviation and Space	Aircraft Design	1	42
	Satellite and Launch Technology	3	65
Construction	Civil Engineering	3	35
Automotive	Electric and Hybrid Vehicle Technology	1	42
Basic Sciences	Mathematics	17	50

SCIMAGO
INSTITUTIONS
RANKINGS

SCImago 2024 results have been announced: IGU is in the top 5 in the field of research!

The results of "SCImago University Rankings 2024", which ranks the scientific research, innovation and social impacts of world universities according to SCOPUS publication and citation data, have been announced. Standing out with its work in research areas, Istanbul Gelisim University ranked 5th among Turkish universities in the field of research and 25th in all fields. It attracted attention with the results it received in the categories of Economy, Environmental Science, Business Administration, Energy, Social Sciences and Engineering.

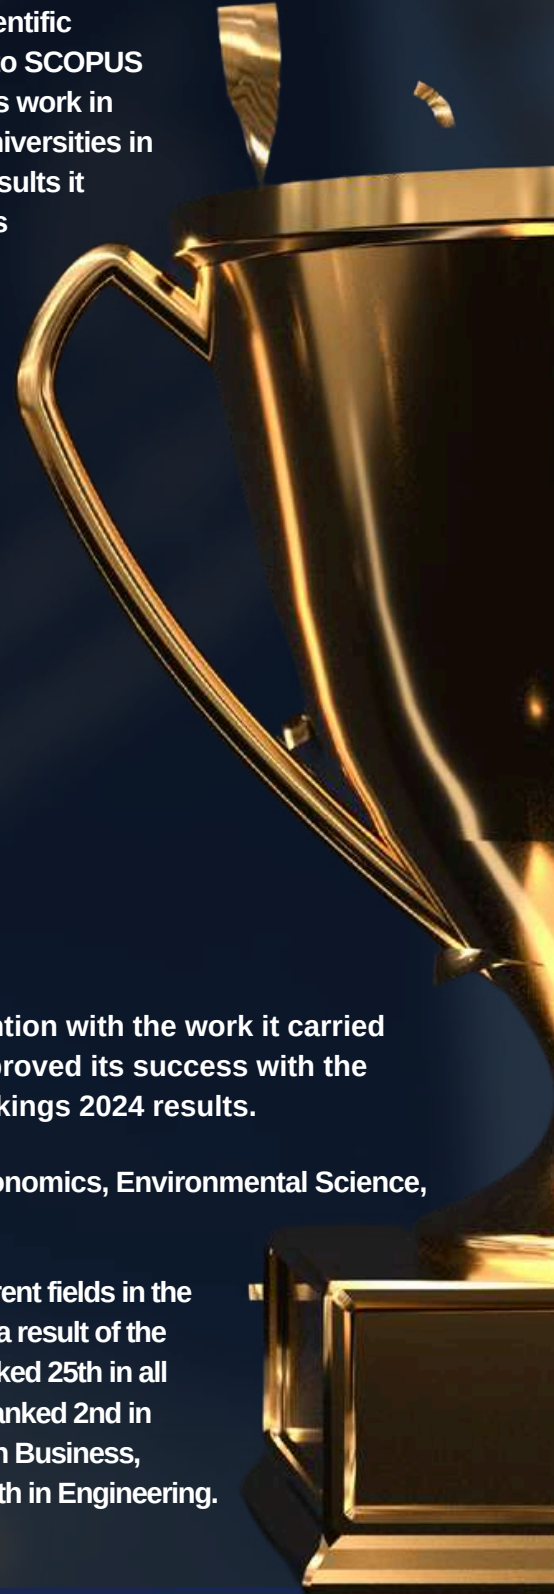

The results of "SCImago University Rankings 2024", which measures the social, scientific impact and innovation of universities around the world, have been announced. Aiming to give a general idea about universities by measuring their performance in terms of research, innovation and social impact, SCImago University Ranking helps students obtain information about a university's education quality, effectiveness and prestige.

Proceeding with the vision of "World University", IGU attracted attention with the work it carried out for its students and the opportunities it provided. It once again proved its success with the degrees it received in different fields in the SCImago University Rankings 2024 results.

Remarkable success among Turkish universities in the categories of Economics, Environmental Science, Business Administration, Energy, Social Sciences and Engineering!

Istanbul Gelisim University draws attention with its research studies in different fields in the 2024 results of SCImago, one of the university evaluation organizations. As a result of the evaluation made on SCOPUS research data, Istanbul Gelisim University ranked 25th in all fields and 5th in the field of research among Turkish universities. IGU also ranked 2nd in Economics, Econometrics and Finance, 4th in Environmental Science, 7th in Business, Management and Accounting, 8th in Energy, 13th in Social Sciences and 14th in Engineering.

Significant success in the 'Accessible and Clean Energy' category from IGU!

World universities ranking organization Times Higher Education (THE) Impact Ranking was announced in 2023. In the ranking, Istanbul Gelisim University, among 1591 universities from 112 countries, achieved success by ranking 12th among Turkish universities in the "Accessible Clean Energy" category for the first time this year.

In the list of 1591 universities in the Times Higher Education (THE) 2023 ranking, the world's leading higher education rating agency based in the UK, the success of Istanbul Gelisim University (IGU) was graded in six different categories in line with the United Nations Sustainable Development Goals. IGU, which was included in the "Accessible Clean Energy" category for the first time in the Impact Ranking 2023 list, was ranked 12th among Turkish universities.

Rated in 6 different categories categories

In the ranking carried out in line with the 17 categories determined by the United Nations within the scope of the Sustainable Development Goals (SDG), Istanbul Gelisim University was graded in 6 different categories with its studies in the field of education, innovative projects and contributions to society. IGU;

- Ranked 12th in Turkey in the SDG-7 Accessible and Clean Energy category, 201-300 worldwide,
- Ranked 12th in Turkey in the category of SDG10 Reducing Inequalities, 301-400 worldwide,
- Ranked 14th in Turkey and 401-600 worldwide in the category of SDG-8 Decent Work and Economic Growth and achieved significant success.

“We attach importance to sustainability studies in every field”

Abdulkadir Gayretli, Chairman of the Board of Trustees of Istanbul Gelisim University (IGU), who made statements about the ranking aimed at evaluating the effects of ecological, economic and environmental sustainability practices on society according to the United Nations 17 Sustainable Development Goals, said, "We attach importance to sustainability studies in all areas, especially environmental sustainability, by adopting the Sustainable Development Goals. While implementing practices for the effective use of natural resources, we continue our prominent works on 'Energy and Climate Change' by advancing with a universal sense of responsibility within the scope of energy and waste management. Under the leadership of YÖK President Prof. Dr. Erol Ozvar, we support the fact that universities are sustainable, energy-efficient, compatible with nature and minimally damaging to the environment, and we support the introduction of energy efficiency and renewable energy applications in university campuses. The rating we get in the Accessible and Clean Energy category is therefore very valuable to us. Within the scope of the 'Zero Waste Project' in our university, we fully believe that we will take part in higher levels in the coming years with more effective execution of the waste management system, interactive activities in the fields of rain harvesting, transportation, education and research."

Award to our Faculty Dean Prof. Dr. Kenan Aydın

The 5th Photo-film International Short Film Festival, organized by the Department of Radio, TV and Cinema and hosted by our faculty, took place. At the award night of the festival, which took place at Faculty of Economics, Administrative and Social Sciences Firms Auditorium between April 24-26-2024, our faculty dean Prof. Dr. Kenan Aydın was presented 2 awards for his contributions to the festival and hosting.

After 3 days of film screenings and talks, the festival met with moviegoers on Friday with an award ceremony with intense participation. Assist. Prof. Dr. Özlem Tuğçe Keleş from our Department of Radio, Television and Cinema was the Festival Director, Research Assistant Bilge İpek was the Festival Coordinator, Mehmet Oflazoglu was the Founding President of the festival, Assist. Prof. Dr. Selda Tunç Subaşı from our Department of Radio, TV and Cinema was the Main Jury President, Assist. Prof. Dr. Güler Canbulat and Assist. Prof. Dr. Erdem Türkavcı were the Festival Advisors. Assist. Prof. Dr. Nisa Güleler Yıldırım, Head of the Department of Radio, TV and Cinema, Assist. Prof. Dr. Aysun Kaya Deniz, Vice Head of the Department, and Assist. Prof. Dr. Eren Efe, Head of the Department of New Media and Communication, took part in the Main Jury.

Youality Founding President Kamran Rasdodzadeh and Amauty de Tarle conveyed their thanks to Istanbul Gelisim University Faculty of Economics, Administrative and Social Sciences and Department of Radio, TV and Cinema at the Photo-film Festival, which was prepared with the contributions of ANSAM Cultural Association and partnered by Paris Youality International Short Film Festival.

You can watch our Faculty Dean Prof. Dr. Kenan Aydın's speech at the award night and the festival video on our Youtube account. [Click](#) for source.

TUBITAK Success from IGVS Director Assoc. Prof. Dr. Lokman Kantar and UBF Faculty Members

The project titled “Initial Public Offerings (IPO) in the Republican Era and Investigation of the Effect of the Media in the Initial Public Offering Process”, led by Assoc. Prof. Lokman Kantar, Director of Istanbul Gelisim University Vocational School (IGVS), was entitled to be supported within the scope of the 1001-Scientific and Technological Research Projects Support Program carried out by TUBITAK Research Support Programs Directorate (ARDEB).

The research team of the project titled “Initial Public Offerings (IPOs) in the Republican Era and Investigation of the Media's Influence in the Initial Public Offering Process” conducted by Assoc. Prof. Lokman Kantar includes the following researchers:

Prof. Dr. Nimet Hülya Tirmandiođlu Talu
Prof. Dr. İbrahim Bozkurt
Assoc. Prof. Dr. Şebnem Gürsoy Ulusoy (FAS)
Assoc. Prof. Dr. Çađla Kaya İlhan (FAS)
Assoc. Prof. Dr. Ali Kablan
Assoc. Prof. Dr. Murat Düzer
Assist. Prof. Dr. Özge Turhan (FAS)

Scholars.

Research Assistant Türkan Öykü Büyükçelikok (FAS)
Research Assistant Metehan Özirmak (FAS)

Department of Interior Architecture Research Assistant Başak Lale's works took place in the April 15 World Art Day International Online Group Exhibition

Istanbul Gelisim University (IGU), Faculty of Fine Arts (FFA), Department of Interior Architecture Res. Assist. Başak Lale's two photography works titled "Mass Production" and "Intersection" were exhibited as part of the April 15 World Art Day International Online Group Exhibition.

IGU, GSF, Department of Interior Architecture Research Res. Assist. Başak Lale won the right to participate in the April 15 World Art Day International Online Group Exhibition with her two photographs titled "Mass Production and Intersection". Res. Assist. Başak Lale, in her two exhibited photographs, recreates the perception of space by revising the photographs of both architecture and life that she took during her fieldwork in the Istanbul Fatih region with the mirroring technique on different axes. The details of the exhibition organized within the scope of IGU, FFA were as follows:

The exhibition, organized by the open call of IGU, FFA, Graphic Design Department, brought together artists from many parts of the world. 104 artists from 9 countries including New Zealand, Egypt, Macedonia, Germany, Cuba, Cuba, Peru, Bulgaria, India, Argentina, Turkey and New Zealand participated in the World Art Day International Painting Exhibition. The exhibition, which brings together artists from different cultures in an online space, exhibits 150 works made in various styles and techniques.

"To reconfigure the boundaries of both space and the experience of that space..."

Res. Assist. Başak Lale shared her comments on the exhibition participation as follows:

"First of all, it is very exciting for me to take part in the April 15 World Art Day International Online Group Exhibition organized by IGU, FFA. I would like to thank everyone who contributed to this organization, which includes unique works from many countries. The two photographs titled "Mass Production" and "Intersection" are revised versions of two typical and very ordinary images of spaces I encountered in Fatih during my fieldwork. In both of them, we can read traces of people and use in the sameness. By mirroring these photographs, I aimed to reconstruct both the spaces and the experiences of those spaces."

We thank Başak Lale, Department of Interior Architecture Res. Assist. and wish her continued success.

Nutrition Principles Laboratory: Fruits and Vegetables

This week, there was the nutritious world of fruits and vegetables in the weekly practice lesson organized within the scope of BEY146E-PRINCIPLES AND PRACTICES OF NUTRITION II course held in Block C Kitchen Laboratory.

Under the guidance of Lect. Münevver Başak Onat, the health benefits, cooking methods and nutritional values of fruits and vegetables were discussed in detail. Students practiced by preparing various recipes with various fruits and vegetables. They also emphasized the importance of food preparation, cooking and presentation. At the end of the lesson, the dishes prepared by the students were tasted and evaluated together. The students enjoyed a comprehensive experience of healthy eating and food preparation processes and enjoyed a knowledge-filled lesson.

HISTORY

Istanbul Gelisim Vocational School started education in 2008 with 9 programs and became a school that forms the core of Istanbul Gelisim University. It has shown rapid development since its establishment; it has reached 19 departments, 37 programs and 10,630 students. Evening education is provided in 21 of 37 programs.

Istanbul Gelisim Vocational School continues its educational activities with its experienced and strong academic staff. In addition to the permanent instructors, by employing the leading names of the sector part-time, the students are given the opportunity to learn their practical experience in business life.

Istanbul Gelisim Vocational School, which has moved to its new campus as of the Fall Term of the 2017-2018 Academic Year, has a total of 22 workshops, including Aircraft Maintenance Workshops, Mock-Up, Kitchen, Electric, Construction, Automotive, Serigraphy, Ceramics and Fashion workshops, in its new campus so that students can apply their theoretical education practically. Besides it offers a field of application with 7 Computer Labs, one of which is MAC.

Our School's Aircraft Technology Program has the Recognized School Approval Certificate from the General Directorate of Civil Aviation (SHGM) as well as the Flight Operations Specialist Training (Dispatcher) Authorization Certificate from the DGCA. Apart from our two programs authorized by DGCA, the licensing processes for the Approved Cabin Crew Basic Training Organization Certificate for Civil Aviation Cabin Services Turkish and English Programs and the Approved Ground Handling Training Organization Certificate for Civil Air Transport Management Turkish and English Programs are continuing at the DGCA.

Istanbul Gelisim Vocational School students can benefit from the educational and social activity opportunities available in all campuses of our university without interruption.

OUR MISSION

To equip our students in all the programs with innovations in their fields, to keep them informed of current developments, to keep this process alive with scientific activities, and to support the scientific studies of lecturers. To be the solution for the need of qualified intermediate staff with the qualifications required by the sector, to have assimilated the latest technological developments, to have developed a practical side.

OUR VISION

Our vision is to be one of the world's leading vocational schools with qualified academic staff and all the programs recognized by international institutions and organizations, and to train students who are demanded by the market and who are all employed after graduation.

EDUCATION

NEWS FROM IGVS

IGVS, Maritime and Port Management Program organized a Technical Training Event

IGVS, Maritime and Port Management Program organized a technical training event at ATA NUTKU Ship Model Experiment Laboratory within ITU Faculty of Naval Architecture and Marine Sciences / Ayazağa.

Within the scope of the event, students participated in a ship model experiment. In the laboratory, the place where scaled ship models are made, benches and materials were seen. In addition to the Experimental Tank, Circulation Channel, Cavitation Tunnel, Stability Tank and ship model workshop where scaled ship models are drawn and ship movements are observed by creating waves, other workshops were also seen within the scope of the activity and detailed information was given by the faculty member in charge of the facility.

Event Titled 'Career with an Entrepreneurial Perspective' Held at IGVS

IGVS, Web Design and Coding Program Head Lect. Çisem Yaşar moderated the "Let's Ask a Bilene: Career with an Entrepreneurial Perspective" was held with the participation of Kaan Gülten, CEO of Webtures and Bilgi Özünal Yuva, Business Development Manager.

The event started with Bilgi Özünal Yuva's presentation on entrepreneurship and then continued with Kaan Gülten's experiences in the sector, what awaits the participants in the sector and what they should pay attention to the difficulties they may encounter. At the same time, the Entrepreneur Head and Artificial Intelligence Head platforms, of which Kaan Gülten is the manager, were introduced. Discussions were held on the establishment process of these platforms, what they encountered and their current audience. At the end of the event, the questions of the students were answered and the event was completed.

The 6th Çubuk Pasta Bridge competition, organized jointly by IGU, Civil Engineering Club and Kuzeyboru company, was held on May 4, 2024 in the J Block hangar area with the participation of teams from Istanbul Gelisim University, Istanbul Technical University, Gebze Technical University, Istanbul Gedik University, Istanbul Esenyurt University, Beykent University, Mimar Sinan Fine Arts University and Istanbul Arel University.

Forty-one teams consisting of students from the Departments of Construction, Architecture and Civil Engineering participated in the competition. The 'Stars of Construction' team, founded by IGVS Construction Technology program students İsmail KUŞ, Esma KÜÇÜK, Ümit Baran DEMİR and Erdoğın ÇINAK, won the 3rd place in the competition.

The bridge, which the team built in 4 hours using only spaghetti sticks and silicone, came very close to breaking the competition record by carrying a load of 69 kg. We congratulate the Stars of Construction team, who worked on their model and techniques with devotion, and wish them continued success.

İsmail KUŞ, Esma KÜÇÜK, Ümit Baran DEMİR and Yasin DALDAL, students of IGVS Construction Technology programme, attended the 3rd International Conference on Engineering, Natural and Social Sciences, ICENSOS 2024 held in Konya on 16-17 May 2024.

The abstract of the paper titled 'Investigation of Reinforced Concrete Structures with Different Heights under Earthquake Effect' was presented online by Esma KÜÇÜK.

We congratulate the success of our students.

Food Allergy and Allergenic Foods

Lect. Aslı MUSLU CAN
Food Technology Program

In 1906, the term allergy was first used as "hypersensitivity" by Australian pediatrician Clemens von Pirquet and was defined as an exaggerated or unexpected immune response of the body to an allergen or antigen.

Mechanism of food allergy; the first study on the development of allergic diseases was in 1921. Researchers named Prausnitz and Küstner conducted experiments on themselves. In the experiment, Küstner, who was allergic to fish, injected his mixture into the skin of Prausnitz, who was allergic to grass but not to fish, and after a certain period of time, he followed the reddening and blistering reactions that suddenly appeared when fish extract was injected into the sensitized skin area. (1)

Of course, let me put it another way: A food allergy is a specific and reproducible hypersensitivity reaction of the body to a food. This reaction is usually to proteins in the food. Allergic reactions usually range from mild to severe. While mild reactions usually present with symptoms such as itching, rash or mild swelling of the skin, severe reactions can lead to a condition known as anaphylaxis, which can be life-threatening. Therefore, food allergies should be taken seriously and evaluated appropriately.

In studies, researchers have stated that food allergy is an important public health problem and that it is very difficult to determine the incidence of food allergies because of various factors. It has been reported in studies that food allergy is high in children and that this may extend into adulthood.

The Food Codex Food Labeling and Consumer Information Regulation No. 29960, published in Resmi Gazete on January 26, 2017, entered into force on January 1, 2020. With this regulation numbered 29960, it has become mandatory to inform consumers of allergen information on foods consumed in places of mass consumption, such as canteens, restaurants, schools and hospitals. In the content of this regulation, information on any allergenic ingredient used in the production or preparation of food, or any allergenic processing aid or ingredients obtained with an allergenic substance must be included in the menus according to certain rules. In Regulation 29960, the definition of places of mass consumption is defined as places where food is made ready for consumption and offered to the end consumer. These places include all restaurants, canteens, schools and hospitals that offer ready-to-eat catering services, including mobile vehicles, fixed or mobile counters.

Allergic diseases are an important problem in our country. The incidence of allergies in children is high and the incidence of allergies varies according to regions. In a study, egg allergy is common in the Mediterranean, Black Sea, Central Anatolia and Eastern Anatolia regions, while milk allergy is more common in the Aegean and Marmara regions. The reason for the geographical characteristics of food allergy is the changes in eating habits and cooking.

According to the Food Allergen and Labeling and Consumer Protection Act passed in the US in 2004, allergen notification has been made mandatory for all foods, both domestic and imported. They recognized eight food groups as allergens and made it mandatory to indicate them on labels. These are milk, eggs, fish (e.g. bass, halibut, cod), shellfish (e.g. crab, lobster, shrimp), nuts (e.g. almonds, walnuts), peanuts, wheat and soybeans. (2)

In the Turkish Food Codex Regulation on Food Labeling and Informing Consumers, 14 allergens causing allergy and intolerance have been reported.

1. Gluten-containing cereals; wheat, rye, barley and oats
2. crustaceans and their products
3. eggs and egg products
4. fish and fish products
5. peanuts and peanut products
6. soybeans and soybean products
7. milk and dairy products (including lactose)
8. Hard-shelled fruits: Almonds (*Amygdalus communis* L.), hazelnuts (*Corylus avellana*), walnuts (*Juglans regia*), cashews (*Anacardium occidentale*), pecans (*Carya illinoensis* (Wangenh.) K.Koch), brazil nuts (*Bertholletia excelsa*), pistachios (*Pistacia vera*), macadamia nuts and Queensland nuts (*Macadamia ternifolia*) and their products
9. Celery and celery products
10. Mustard and mustard products
11. Sesame seeds and sesame seed products
12. Sulfur dioxide and sulfides (for products ready for consumption or prepared according to manufacturers' instructions, with a concentration calculated in terms of total SO₂ greater than 10 mg/kg or 10 mg/L)
13. Lupins and lupin products
14. Molluscs and their products

According to the regulation, allergenic food warning must be made on all products using the above-mentioned foods. (3)

Entrance Examination for Law Professions

Lect. Buğrahan ERGÜN
Justice Program

As a result of the efforts to increase the quality of legal professions and to ensure that graduates have a profession as a result of the measurement and evaluation to be made among the graduates, the Entrance Examination for Law Professions and Administrative Jurisdiction Preliminary Examination, which is regulated in Article 41 of the Higher Education Law No. 2547, entered into force on 24.10.2019.

Regulation on Entrance Examination for Law Professions and Preliminary Examination for Administrative Judiciary

Following the legal regulation, the Ministry of Justice published the [“Regulation on Entrance Examination for Law Professions and Administrative Judiciary Preliminary Examination”](#) in the Official Gazette dated 08.05.2024 and numbered 32540.

In the Regulation;

- The Entrance Examination for Law Professions will be applied to those who enrolled in higher education institutions after 24/10/2019 and graduated after 31/3/2024,
- Those who have graduated from the Faculty of Law and those who have graduated from a foreign faculty of law and have obtained a certificate of equivalence by taking the exam and succeeding in the courses that are incomplete according to the programs of the faculties of law in Turkey can participate in the exam,
- The Law Professions Entrance Examination will be held twice a year, in April and September, by ÖSYM in accordance with the protocol and other conditions are specified.

With the concept of legal professions expressed in the Regulation, the professions of judge, prosecutor, lawyer and notary public are listed as legal professions.

It is regulated that the exams will be held by ÖSYM and in the second part of the regulation, the exam announcements will be made on the website of the Ministry of Justice at least 15 days before the exam applications, as well as the Entrance Examination for Legal Professions will be held twice a year in April and September.

Those who have graduated from the aforementioned departments as of the exam date will be able to apply for these exams. The exams to be held by ÖSYM will consist of at least 100 multiple-choice questions in the form of a test. Those who score at least 70 points out of 100 full points will be considered successful.

The subjects to be asked in the exams and the distribution of points are also included in the regulation.

Minister of Justice Yılmaz TUNÇ made the following statements regarding the purpose of the exam system and what is expected in terms of its results: “The regulation, which we have completed the work on the Entrance Examination for Legal Professions and Administrative Judicial Preliminary Examination, which we have implemented in order to provide better quality legal services to our citizens, was published in the Official Gazette. The quality of judicial services will further increase with the Entrance Examination for Legal Professions and Administrative Judicial Preliminary Examination. It will be necessary to pass the Entrance Examination for Legal Professions in order to start lawyer internship and to take the Assistant Judge and Assistant Prosecutor Examination. The exam will be applied for those who enrolled in higher education institutions after 24/10/2019 and graduated after 31/3/2024. I wish convenience to all candidates who will take the Entrance Examination for Legal Professions and the Administrative Judiciary Preliminary Examination.”

FOOD
TECHNOLOGIES
CLUB

Our Food Technologies Club is a specialty club established within the body of Istanbul Gelisim University, Department of Health, Culture and Sports (HCS). Food Engineer Msc. Lecturer Kübra SAĞLAM, Head of Food Technology Program at Istanbul Gelisim Vocational School, carries out the consultancy of the club. Our club was established in order to organize social activities such as seminars, conferences, technical trips in the fields of Food Technology and Food Processing, to implement the ideas of individuals with R&D ideas and to carry out patent studies, to raise awareness of consumers about clean, healthy, reliable food production and consumption. Our club is an innovative and creative club that constantly develops itself and organizes events not only for Food Technology students, but also for everyone who is interested in the sector and wants to gain knowledge in this field.

Our club's fields of activity are as follows:

- Ensuring interaction between the sector and the student
- Participating in fairs in the field of food
- Carrying out R&D activities and patent studies
- Organizing technical trips
- Celebrating Food Days and raising awareness
- Organizing in-field seminars and conferences
- Carrying out workshops
- Organizing career talks
